To Whom it may concern:

Maintenance dredging has been conducted in Humboldt Bay by dredge YAQUINA and dredge ESSAYONS. Additional dredging is scheduled by the dredge BAYPORT. An unofficial survey was conducted by the Humboldt Bar Pilots Association and the draft restriction has been lifted for Humboldt Bay. Vessels can load to a draft of 38 feet based on a +6.0 foot tide.

Official surveys will soon be conducted by the USACE and the Pilots will verify the depths in all areas of the Bay.

If you have any questions or concerns please don't hesitate to contact us using the information provided above.

Thank you,

Capt. Tim Petrusha, Bar Pilot

Humboldt Bar Pilots Association
